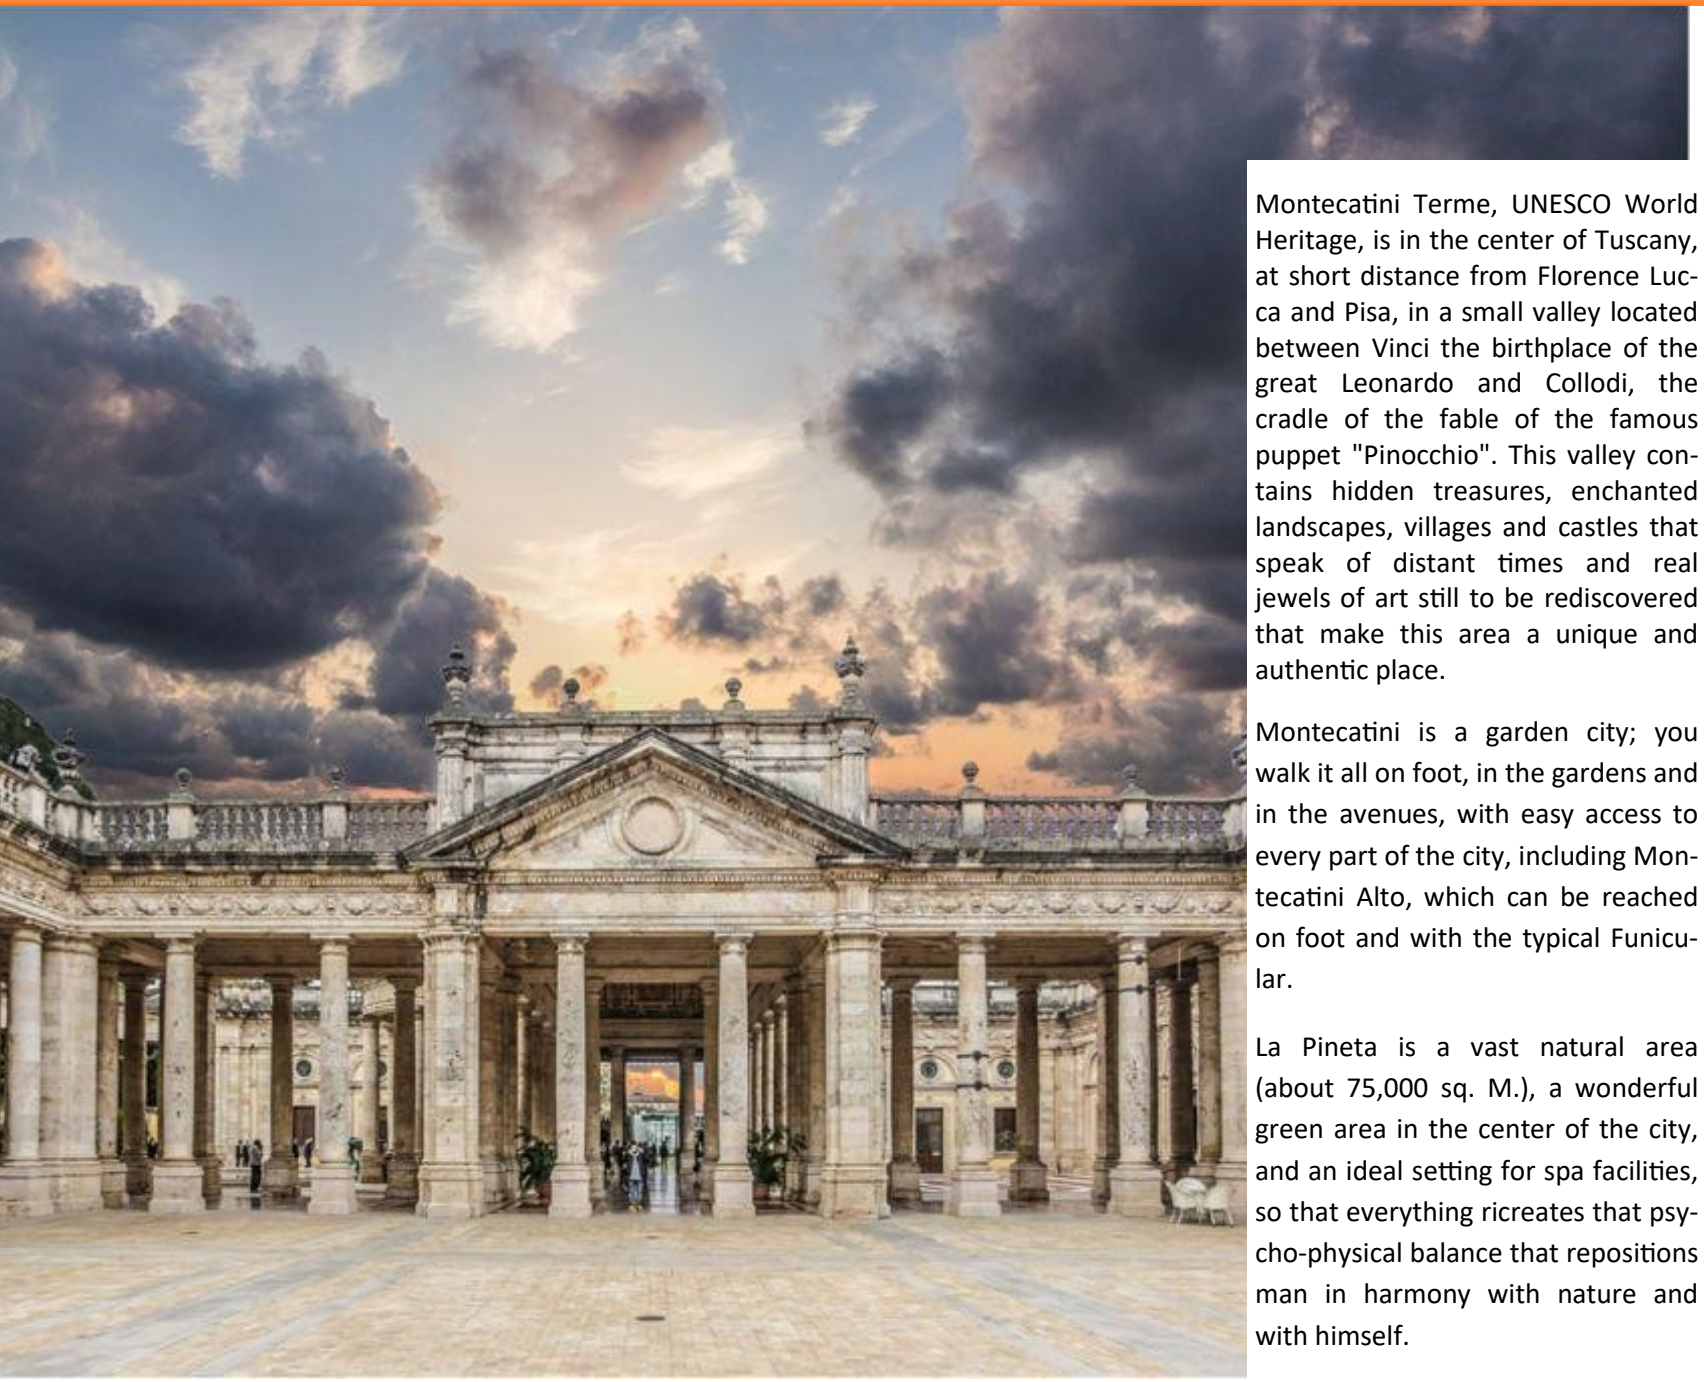
50 Km from Pisa –Galileo Galilei Airport

How to reach Montecatini Terme
By train: direct line from Florence
By bus: direct line from Florence and Pisa
By car: highway A11 exit Montecatini Terme

Montecatini Terme, city of sport, nature and beauty



Montecatini Terme, UNESCO World Heritage, is in the center of Tuscany, at short distance from Florence Lucca and Pisa, in a small valley located between Vinci the birthplace of the great Leonardo and Collodi, the cradle of the fable of the famous puppet "Pinocchio". This valley contains hidden treasures, enchanted landscapes, villages and castles that speak of distant times and real jewels of art still to be rediscovered that make this area a unique and authentic place.

Montecatini is a garden city; you walk it all on foot, in the gardens and in the avenues, with easy access to every part of the city, including Montecatini Alto, which can be reached on foot and with the typical Funicular.

La Pineta is a vast natural area (about 75,000 sq. M.), a wonderful green area in the center of the city, and an ideal setting for spa facilities, so that everything ricreates that psycho-physical balance that repositions man in harmony with nature and with himself.

The thermal establishments, true architectural and artistic masterpieces, together with the buildings of the liberty taste and the works of modern international artists, constitute a true open-air museum.

Hotel accommodation offers accommodation for all needs; the cozy atmosphere, the tradition of refined hospitality, the excellent cuisine, the proximity to tourist attractions of great interest make it the ideal destination both as a pleasant base for an unforgettable itinerary as well as for a stay of health and well being.

The ideal place for a refreshing break or just to spend a day at the spa or for a vacation to be devoted to yourself, family or fun, the territory of Montecatini Terme is ancient for history and culture, as evidenced by the numerous archaeological finds of the Neolithic, Etruscan and Roman times and the hills that cradle the valley, with their castles and medieval villages.

It is home to many domestic, international and even global sports initiatives, just because it is a zero-impact destination, which means you do not have to take the car once you arrive, unless you have to go back home!

Welcome to Montecatini Terme!

Nuovo Teatro Verdi

The Verdi Theater will host performances of Dance, Folk, Musical, Aerial Dances. The theater is a tensile structure of about 1,600 sq. meters of which 600 sq. meters of stage and has a capacity of up to 1,500 people. The structure has often been used by RAI, the Italian National TV to broadcast entertainment television shows where international stars of cinema and music were guests

Congress Palace

Adjacent to the Verdi Theater are the Terme Excelsior.
The Terme Excelsior was built in the early ‘900, of great value are the Liberty hall and the swans fountain. Four days in which master classes, internships, conferences.

The ancient tradition of hospitality has always characterized Montecatini Terme

All hotels are near to the performances locations and the city is entirely at walking distance

You can choose from a wide range of hotel facilities according to your needs and pleasure
